SIGMA
Remote Staff and Crew Experience

Revolutionize crew experience with our optimized networks, simplified administration, and customizable service packages, empowering seamless access to internet-based services, voice, and applications through a modern, user-friendly portal.

SIGMA
ECOSYSTEM

Optimized Networks

Ensure seamless connectivity and enhanced performance for remote staff and crew members, enabling efficient access to internet-based services, voice communication, and applications.

Simplified Administration

Streamline the management of staff and crew access to internet-based services, voice communication, and applications through an intuitive and user-friendly portal, simplifying administrative tasks.

Customizable Packages

Tailor service offerings to meet specific business needs, providing flexibility in creating customized service packages and plans for users.

Easy-to-Use Portal

Empower staff and crew members with a modern and intuitive portal, allowing them to effortlessly navigate and access data plans and voice communications.

Variety of Models

Choose from a range of models to support different service offerings, ensuring that the staff and crew experience aligns with specific business requirements and objectives.

Bandwidth Management

By offering a dedicated staff and crew data plan, users are guaranteed sufficient bandwidth for personal internet usage while preventing bandwidth congestion that could affect critical operational applications.

A Wide Selection of Plans
That Suit Your Needs

Open Data Plan

Seamlessly auto-allocated data volume allowance that refreshes on a daily basis. Effectively manage bandwidth usage (in MB/GB) specifically designated for crew or staff social use within a specified timeframe, typically spanning 24 hours.

Flexible Data Plan

Enables organizations to generate short, alphanumeric voucher codes that are linked to data plans.

Pay As You Go (PAYG) Data Plan

By offering a convenient pre-paid solution utilizing credit cards, administrators can effortlessly create data plans.

Voice Vouchers

Post-paid and pre-paid voice packages using vouchers or credit cards.
